CRESTLINE ADVISORS is pleased to present

SOUTHPARK CENTRE

Exclusive Offering Memorandum 4800 Sharon Road, Charlotte, North Carolina 28211
280,000 Rentable Square Feet • Class B+ Office • SouthPark Submarket May 2026

Executive Summary

Crestline Advisors is pleased to offer for sale SouthPark Centre, a 280,000 square foot Class B+ office building located at 4800 Sharon Road in Charlotte's premier suburban office submarket. The Property is being offered on an unpriced basis with seller guidance of $52,000,000, representing approximately $186 per square foot on total rentable area. SouthPark Centre presents a compelling value-add opportunity for an experienced operator to acquire a well-located, institutionally maintained office asset at a basis significantly below replacement cost, implement a targeted common area renovation program, and benefit from meaningful rent growth as leases roll to market rates over the next several years. The building is currently 78% leased to a diversified roster of twenty tenants, all on triple-net lease structures. Trailing twelve-month net operating income is approximately $3,880,000, implying an in-place capitalization rate of approximately 7.5% on the guidance price. We believe a purchaser who executes a renovation program and stabilizes the vacant space can achieve a stabilized NOI in excess of $5,200,000, implying a yield on cost that is highly attractive relative to current market conditions.

Investment Summary	
Guidance Price	$52,000,000
Price Per Square Foot	$185.71
Total Rentable Area	280,000 SF
Current Occupancy	78.0%
Number of Tenants	20
Lease Structure	100% Triple Net (NNN)
Trailing 12-Month NOI	$3,880,000
In-Place Cap Rate (on Guidance)	7.5%
Year Built	2001
Last Renovated	2014 (Common Areas)
Parking	840 spaces (3.0/1,000 SF)
Floors	8 above grade
Site Area	4.8 acres

Investment Highlights

Below-Replacement-Cost Basis

At the guidance price of $186 per square foot, a purchaser acquires SouthPark Centre at a significant discount to the estimated replacement cost of $275-$300 per square foot for comparable Class B+ office construction in the Charlotte MSA. New office deliveries in SouthPark are limited by a constrained land supply and increasingly prohibitive construction economics, which creates a favorable dynamic for existing, well-located product. The last new office building delivered in SouthPark was in 2019, and only one project

is currently under construction in the immediate submarket.

Value-Add Renovation Opportunity

The Property's common areas, including the main lobby, ground-floor reception, and corridor finishes on the lower floors, were last renovated in 2014 and would benefit from a cosmetic refresh. We estimate that a targeted renovation program encompassing the lobby, corridor upgrades on floors one through five, restroom updates, and improved wayfinding and signage could be executed for approximately $5,000,000, or roughly $18 per square foot on total building area. This type of soft renovation has historically driven meaningful rent premiums in the SouthPark submarket, where tenants place a high value on building presentation and common area finishes. We believe a renovated SouthPark Centre can command rents approximately 5% above current in-place levels, with additional upside on vacant space that can be delivered in renovated condition from day one.

Anchor Tenant Rollover Creates Lease-Up Opportunity

Meridian Financial Group, the building's largest tenant at 76,000 square feet across floors six through eight, has a lease expiring in October 2026. Meridian has indicated that they will not be renewing and intend to relocate to a new build-to-suit facility in Ballantyne. While the departure of a 76,000 square foot tenant represents a near-term occupancy event, we view this as a significant opportunity rather than a risk, for several reasons. First, Meridian's current in-place rent of $19.50 per square foot is well below the current market rate for Class B+ space in SouthPark, which is running in the low-to-mid $20s per square foot for spaces in this size range. A new purchaser who demises the space into smaller suites of 10,000 to 15,000 square feet can achieve rents of $24 to $26 per square foot on a renovated basis, representing a roughly 25% premium to Meridian's in-place rate. Second, the SouthPark submarket has historically exhibited strong absorption for small and mid-size office suites, particularly in the 5,000 to 15,000 square foot range. The submarket vacancy rate for this size category is approximately 9%, well below the overall submarket vacancy of 14.8%, reflecting consistent demand from the professional services, financial advisory, and healthcare tenants that dominate the SouthPark tenant base. Third, the absence of any significant new construction in SouthPark over the next 24 months provides a runway for lease-up without having to compete against new product with superior finishes. The one project currently under construction in SouthPark, a 65,000 square foot medical office building on Carnegie Boulevard, is substantially pre-leased and does not compete directly with SouthPark Centre's tenant profile.

Diversified Tenancy with Limited Near-Term Rollover

Excluding Meridian, the remaining tenant base is well diversified across 19 tenants, with no single tenant exceeding 9% of occupied square footage. The tenant mix spans financial services, healthcare, legal, technology, marketing, and professional services, which reduces sector concentration risk. Approximately 72% of remaining tenant leases by square footage extend beyond 2028, providing stable cash flow during the renovation and lease-up period. Only three tenants totaling approximately 25,300 square feet have leases expiring before year-end 2028, and two of those three have renewal options.

Premier Suburban Location

SouthPark is Charlotte's most established suburban office submarket and has been the preferred address for the city's professional services community for over three decades. The submarket benefits from proximity to SouthPark Mall (one of the highest-grossing enclosed malls in the Southeast), a deep and affluent labor pool, excellent school districts, and direct access to I-77 via Sharon Road and Fairview Road. SouthPark Centre's location at 4800 Sharon Road places it within five minutes of the SouthPark Town Center retail and

dining district and within fifteen minutes of Uptown Charlotte.

Institutional Quality Construction

SouthPark Centre was built in 2001 to institutional standards, with a steel frame, curtainwall envelope, two passenger elevators, one freight elevator, and an attached four-level parking structure providing 840 spaces at a ratio of 3.0 per 1,000 square feet. The building's mechanical systems are generally in good condition, with the HVAC system comprising eight rooftop units, five of which were refurbished or had compressors replaced between 2018 and 2020. The roof is a modified bitumen system with an estimated remaining useful life of 10 to 15 years per the most recent inspection report. A full set of property condition reports, including PCR, HVAC assessment, roof inspection, and elevator certification, are available in the data room.

Property Description

Building Specifications	
Address	4800 Sharon Road, Charlotte, NC 28211
County	Mecklenburg
Building Type	Class B+ Suburban Office
Rentable Area	280,000 SF
Usable Area	~252,000 SF (est. 90% efficiency)
Number of Floors	8 above grade
Typical Floor Plate	35,000 SF
Floor-to-Ceiling Height	9'6" (typical office floors)
Lobby Height	22' (double-height)

Building Specifications	
Construction	Steel frame, curtainwall and precast concrete exterior
Foundation	Spread footings on engineered fill
Roof	Modified bitumen, ballasted (installed 2001)
Elevators	2 passenger (Otis Gen2, 3,500 lb capacity) + 1 freight (Otis 5000, 5,000 lb)
HVAC	8 RTUs (rooftop units), mix of original and refurbished
Fire Protection	Fully sprinklered, NFPA compliant
Electrical	2,000 amp, 277/480V three-phase
Emergency Power	350 kW diesel generator (life safety and elevator backup)
Telecom	Fiber-served (AT&T, Spectrum). Rooftop antenna installations (T-Mobile).
Year Built	2001
Last Renovation	2014 (lobby and common area finishes)

Parking

The Property includes an attached four-level structured parking garage providing 840 total parking spaces at a ratio of 3.0 spaces per 1,000 rentable square feet. Parking is allocated as follows: 280 reserved spaces (allocated to tenants at 1.0 per 1,000 SF of leased space), 420 unreserved monthly permit and visitor spaces, and 140 designated visitor spaces at the ground level of the garage. The parking facility is managed by

Premier Parking Solutions under a management agreement expiring December 2027 with annual auto-renewal provisions. The garage generates approximately $230,000 in annual net revenue to the owner after management fees. The parking structure is in fair condition, with minor surface cracking noted in the property condition report. We estimate resurfacing costs of approximately $85,000 within the next two to three years.

Site

SouthPark Centre sits on a 4.8-acre parcel at the southwest corner of Sharon Road and Colony Road, two of SouthPark's primary commercial corridors. The site is rectangular and generally flat, with mature landscaping along the street frontages and a landscaped entry court with a monument sign at the Sharon Road entrance. There is a secondary vehicular entrance on Colony Road providing direct access to the parking structure. The site is zoned O-2 (Office District) under the City of Charlotte's Unified Development Ordinance, which permits general office, medical office, and limited retail uses. The property is not located in a flood zone per the current FEMA Flood Insurance Rate Map.

Building Condition

SouthPark Centre has been institutionally owned and managed since construction. The Hartwell Family Office acquired the Property in 2009 and has maintained it to a standard consistent with the competitive set, though we note that certain common area finishes, particularly the main lobby, ground-floor corridor, and restrooms on floors one through five, are showing their age and would benefit from updating. The property condition report prepared by GreatPlains Engineering Associates in April 2026 rates the building's overall condition as "Fair to Good" and identifies no significant structural, mechanical, or life-safety deficiencies. A summary of capital recommendations from the PCR, HVAC assessment, and roof inspection is available in the data room. The upper floors (six through eight) are in noticeably better condition than the lower floors, reflecting more recent tenant improvements and corridor finishes on those levels. The elevators are in good working order and passed their most recent North Carolina Department of Labor inspection in January 2026, though the cab interiors are dated and would benefit from cosmetic modernization as part of any broader renovation effort.

Location & Accessibility

SouthPark Centre benefits from one of the strongest office locations in the Charlotte metropolitan area. The SouthPark submarket has historically attracted Charlotte's most established professional services firms, wealth management practices, and regional healthcare operations, drawn by the combination of a highly educated labor pool, proximity to executive housing, and the area's retail and dining amenities.

Transportation Access

The Property is situated at the intersection of Sharon Road and Colony Road, providing direct connectivity to Charlotte's major transportation arteries. I-77, the primary north-south interstate serving the Charlotte region, is accessible within approximately three miles via Sharon Road to Tyvola Road. I-485, the outer beltway that circles the Charlotte MSA, is approximately four miles south via Rea Road or Colony Road. Sharon Road itself functions as one of SouthPark's primary east-west corridors, connecting the submarket to Uptown Charlotte (approximately seven miles northeast) and to the Ballantyne submarket to the south. Charlotte Douglas International Airport (CLT) is approximately 14 miles west of the Property, accessible in roughly 20 minutes via I-77 during off-peak hours. CLT has undergone significant expansion in recent years and now serves as a major hub, with direct service to over 175 destinations. While SouthPark is not

currently served by the LYNX Blue Line light rail, the City of Charlotte's 2030 Transit Plan includes a planned extension of the Silver Line through the SouthPark area, which would add rail connectivity to both Uptown and the airport. Planning and environmental review for this corridor are ongoing.

Surrounding Amenities

SouthPark Centre's location provides tenants and their employees with access to an unmatched array of suburban amenities within a five-minute drive. SouthPark Mall, anchored by

Nordstrom and Neiman Marcus, is one of the highest-volume enclosed retail centers in the Southeastern United States and serves as the commercial anchor of the submarket. The SouthPark Town Center area along Sharon Road and Fairview Road includes a concentration of restaurants, banks, and service retailers that cater to the area's professional workforce. The Phillips Place mixed-use development, located approximately one mile east of the Property on Fairview Road, includes a cinema, boutique retail, restaurants, and the Dean & DeLuca specialty grocer (now rebranded as a local concept). Morrison YMCA, located less than a mile from the Property, is one of the largest YMCA facilities in the Charlotte system and is a meaningful amenity for recruiting and retaining employees. Sharon Road is also well served by medical facilities, including Novant Health Presbyterian Medical Center's SouthPark campus, providing convenient healthcare access for building tenants.

Labor Market

The SouthPark submarket draws its labor pool from some of Charlotte's most desirable residential neighborhoods, including Myers Park, Foxcroft, Quail Hollow, and the Ballantyne residential communities to the south. These areas are characterized by high household incomes, above-average educational attainment, and access to some of the top-rated public and private schools in Mecklenburg County, including Myers Park High School, Providence Day School, and Charlotte Latin School. This concentration of executive and professional housing has made SouthPark the natural home for Charlotte's advisory and professional services community, and it remains the submarket of choice for tenants who prioritize access to senior talent.

SouthPark Submarket Overview

SouthPark is Charlotte's second-largest office submarket by inventory, with approximately 4.2 million square feet of office space, trailing only the Uptown CBD. The submarket has historically exhibited lower vacancy rates, stronger rent growth, and more consistent absorption than the broader Charlotte office market, reflecting the depth of its tenant base and the limited availability of developable land for new construction.

SouthPark Submarket Snapshot - Q1 2026	
Total Office Inventory	4,200,000 SF
Overall Vacancy	14.8%
Class A Vacancy	12.5%
Class B Vacancy	16.2%
Average Asking Rent (NNN)	$24.50/SF
Class A Asking Rent (NNN)	$28.00/SF
Class B Asking Rent (NNN)	$21.50/SF
Net Absorption (TTM)	45,000 SF

SouthPark Submarket Snapshot - Q1 2026	
Under Construction	65,000 SF (medical office, 80% pre-leased)

SouthPark's office vacancy has trended downward from a COVID-era peak of 18.5% in Q3 2021 to the current level of 14.8%, driven by steady absorption from small and mid-size tenants in the financial services, healthcare, and professional services sectors. While the submarket experienced some larger tenant departures in 2023 and 2024 as companies right-sized their footprints in response to hybrid work patterns, the impact was largely absorbed by the smaller-suite segment, which has been consistently positive in absorption every quarter since Q2 2022. Asking rents in SouthPark have been resilient throughout the cycle, with average asking NNN rents for Class B space holding steady in the $20 to $22 per square foot range. The submarket's rent premium over the Charlotte suburban average is approximately 15%, reflecting the quality of the location, the tenant base, and the limited supply of competing product.

Construction Pipeline

The SouthPark submarket has one of the most constrained development pipelines in the Charlotte MSA. The only project currently under construction is a 65,000 square foot medical office building on Carnegie Boulevard, which is approximately 80% pre-leased and is not expected to compete directly with SouthPark Centre's general office tenant profile. Two additional projects have been proposed but neither has broken ground, and both face uncertain timelines given current construction financing conditions and the elevated cost environment. Across the broader South Charlotte corridor, including Ballantyne and the I-485 South submarket, there is approximately 180,000 square feet of office space under construction, but these projects are geographically distinct and serve different tenant pools than SouthPark. We do not view them as directly competitive with SouthPark Centre.

Charlotte MSA Economic Fundamentals

Charlotte remains one of the fastest-growing metropolitan areas in the United States, with the MSA population exceeding 2.8 million and employment growth that has consistently outpaced the national average. The metro area added approximately 28,000 net new jobs in the twelve months ending March 2026, led by professional and business services, healthcare, and financial activities. Charlotte's status as the second-largest banking center in the United States by total assets, behind only New York, provides a structural floor for office demand, particularly in the financial services and professional services sectors that are the primary tenant base in SouthPark. Unemployment in the Charlotte MSA was 3.4% as of March 2026, below both the state (3.8%) and national (4.1%) averages. The metro area has attracted significant corporate relocations and expansions in recent years, including multiple Fortune 500 companies that have established or expanded regional operations in the Charlotte area. While much of this corporate growth has been directed at Uptown and the University Research Park, the spillover benefits to suburban submarkets like SouthPark have been meaningful, particularly in the form of increased demand from the advisory, consulting, and professional services firms that serve these larger corporate tenants.

Tenancy Overview

SouthPark Centre is leased to twenty tenants, representing a diversified mix of professional services, financial advisory, healthcare, technology, and legal firms. All leases are structured as triple-net (NNN), under which tenants reimburse their pro-rata share of operating expenses including real estate taxes, insurance, utilities, and common area maintenance. This NNN structure shifts the majority of operating cost inflation risk from the owner to the tenant base, providing meaningful downside protection in an inflationary environment. The tenant base is granular, with no single tenant other than Meridian Financial Group

exceeding 9% of total occupied area. This diversification limits the NOI impact of any individual tenant credit event or lease non-renewal.

Tenant Roster

#	Tenant	Suite	Floor	SF	% of Bldg	Rent/SF	Lease Exp.
1	Meridian Financial Group	600-820	6-8	76,000	27.1%	$19.50	10/31/2026
2	Southeast Regional Health	200	2	24,000	8.6%	$21.50	3/31/2029
3	Carter & Associates Law	310	3	12,000	4.3%	$22.00	9/30/2027
4	Pinnacle Wealth Advisors	320	3	11,000	3.9%	$20.25	12/31/2028

7	Caldwell Consulting Group	420	4	9,500	3.4%	$20.50	8/31/2031
8	Queen City Accounting	210	2	8,500	3.0%	$19.75	1/31/2028
9	Monarch Marketing Group	340	3	7,800	2.8%	$21.00	4/30/2029
10	Davidson & Reed Architects	430	4	7,200	2.6%	$20.75	11/30/2028
11	Greenway E nvironmental Services	220	2	6,800	2.4%	$19.50	7/31/2029
12	Trellis HR Solutions	510	5	6,200	2.2%	$22.25	5/31/2030
13	Summit Digital Media	350	3	5,400	1.9%	$21.50	10/31/2028
14	Lakeview Financial Planning	230	2	4,800	1.7%	$19.50	7/31/2027
15	Cornerstone Title Services	440	4	5,000	1.8%	$20.50	12/31/2029
16	Appalachian Wealth Management	520	5	4,200	1.5%	$21.00	3/31/2031

17	Blue Ridge Legal Services	530	5	3,800	1.4%	$20.00	8/31/2028
18	Magnolia Event Planning	240	2	3,500	1.3%	$21.25	11/30/2029
19	Horizon Physical Therapy	110	1	2,500	0.9%	$18.50	2/28/2028
20	SouthPark Dental Associates	120	1	1,800	0.6%	$18.00	3/31/2026
	TOTAL / WTD AVG			218,400	78.0%	$20.30	

Note: Tenant #6 (Brightpath Insurance Agency) current rent reflects the most recent escalation applied as of the rent roll date. All rents shown are current annualized base rents per square foot on a NNN basis.

Lease Expiration Schedule

The following table summarizes lease expirations by year. The near-term rollover is concentrated in Meridian Financial Group (October 2026), which the seller has identified as a known departure. The remaining lease expiration profile is manageable, with modest annual rollover of 4% to 9% of occupied area

through the hold period.

Year	Tenants Expiring	SF Expiring	% of Occupied SF	Cumulative %
2026	Meridian Financial, SouthPark Dental	77,800	35.6%	35.6%
2027	Carter & Assoc., Lakeview Financial	16,800	7.7%	43.3%
2028	Pinnacle Wealth, Queen City, Davidson & Reed, Summit Digital, Blue Ridge, Horizon PT	46,400	21.2%	64.6%
2029	SE Regional Health, Brightpath, Monarch, Greenway, Cornerstone, Magnolia	55,800	25.5%	90.1%
2030	TechBridge, Trellis HR	16,700	7.6%	97.7%
2031	Caldwell Consulting, Appalachian Wealth	13,700	6.3%	104.0%

Tenant Industry Mix

The tenant roster reflects a healthy distribution across industries. Financial services and wealth management firms account for approximately 35% of leased square footage, consistent with

SouthPark's historical identity as Charlotte's financial advisory hub. Healthcare and medical tenants represent approximately 15%, legal services approximately 7%, and technology and creative services approximately 10%. The remaining approximately 33% is spread across consulting, HR, environmental services, and event planning. This diversification mitigates the risk of a downturn in any single sector materially impacting building occupancy.

Financial Summary

Trailing Twelve-Month Operating Statement

The following table presents the Property's operating performance for the trailing twelve months ending April 30, 2026, as reported by the seller's property management company, Greystone Property Management Inc. A detailed monthly T-12 is available in the data room.

Revenue	T-12 Amount	Per SF
Base Rental Revenue	$4,185,000	$14.95
Expense Reimbursements (NNN)	$1,588,000	$5.67
Parking Revenue	$228,000	$0.81
Antenna/Telecom Income	$62,000	$0.22
Storage Revenue	$20,000	$0.07
Other Income	$50,000	$0.18
Effective Gross Income	$6,133,000	$21.90

Operating Expenses	T-12 Amount	Per SF
Real Estate Taxes	$718,000	$2.56
Property Insurance	$210,000	$0.75
Utilities (Common Area)	$322,000	$1.15
Repairs & Maintenance	$248,000	$0.89
Janitorial	$205,000	$0.73
Landscaping	$44,000	$0.16
Security	$68,000	$0.24
Management Fee (3.5% EGI)	$215,000	$0.77
Marketing & Admin	$15,000	$0.05
General & Administrative	$37,000	$0.13
Total Operating Expenses	$2,082,000	$7.44
Net Operating Income	$4,051,000	$14.47

Other Income Detail

The Property generates miscellaneous income from three sources in addition to base rent and NNN reimbursements: Parking: Net parking revenue of approximately $228,000 annually after management fees paid to Premier Parking Solutions. Revenue is derived from a combination of unreserved monthly permits and transient hourly parking. The parking structure is attached and well utilized, typically running at 75-80% occupancy during business hours. We believe there is modest upside in parking revenue as the building occupancy stabilizes post-renovation. Antenna/Telecom: The Property has two rooftop antenna installations generating a combined $62,000 annually. One installation is leased to T-Mobile under a license agreement with approximately five years remaining. A second installation was previously leased to Sprint; this contract generates income that is reflected in the trailing period. Prospective purchasers should verify the current status of all telecom contracts via the Vendor Contracts Summary in the data room. Storage: A limited number of storage units in the building's lower level generate approximately $20,000 annually. These leases are month-to-month.

Value-Add Opportunity

Common Area Renovation

SouthPark Centre's common areas present a straightforward renovation opportunity. The lobby, which has a generous double-height volume and was last updated in 2014, now reads as dated relative to the competitive set. Several recently traded buildings in SouthPark, including 4600 Park Road and 6100 Fairview, have undergone lobby and common area renovations that have demonstrably improved tenant retention and supported rent premiums of 3% to 8% above pre-renovation asking rates. We estimate that a comprehensive but targeted renovation encompassing the lobby, corridor finishes on floors one through five, restroom updates on floors one through five, elevator cab interiors, and improved building signage and wayfinding can be executed for approximately $5,000,000. This estimate assumes a "soft" renovation approach that preserves the existing floor plan and structural elements while updating finishes, lighting, and fixtures to current standards. A more aggressive renovation, including structural modifications to the lobby layout or a full curtainwall re-cladding, would be more expensive but is not required to achieve the projected rent

premiums.

Spec Suite Program

The departure of Meridian Financial Group in late 2026 creates an opportunity to demise the 76,000 square foot, three-floor space into smaller spec suites that can be delivered in move-in condition. The SouthPark market has shown consistent demand for finished suites in the 8,000 to 15,000 square foot range, particularly from financial advisory, legal, and professional services firms that value turnkey space with modern finishes. We believe a purchaser who builds out six spec suites ranging from 11,500 to 14,000 square feet, with Class A finishes including glass fronts, open floor plans, kitchen and break areas, and phone rooms, can achieve rents in the range of $24 to $26 per square foot NNN. This represents a meaningful premium to Meridian's in-place rent of $19.50 per square foot and is consistent with recent leasing activity for comparable renovated space in SouthPark. The spec suite program can be executed concurrently with the common area renovation, phased floor by floor to manage capital deployment and construction logistics. We estimate total build-out costs for the spec suites at approximately $35 per square foot, though this will vary depending on finish levels and the specific tenant improvements required by incoming tenants.

Stabilized NOI Projection

Upon completion of the renovation program and stabilization of the Meridian space, we project a stabilized NOI in the range of $5,200,000 to $5,500,000, reflecting the following assumptions:

Stabilized NOI Bridge	Amount
Current In-Place NOI (adjusted)	$3,880,000
Add: Spec Suite Revenue (76,000 SF x $25/SF avg, 95% occ)	$1,805,000
Add: Renovation Rent Premium (5% on existing base)	$165,000
Less: Incremental OpEx on Spec Suites	($285,000)
Less: Meridian Base Rent Loss	($1,482,000)
Add: NNN Reimbursement on Spec Suites	$420,000
Less: Meridian NNN Reimbursement Loss	($245,000)
Net Other Adjustments	$42,000
Projected Stabilized NOI	$4,300,000 - $5,500,000

We note that the upper end of this range assumes a successful lease-up at rents closer to $26 per square foot and captures the full effect of the renovation premium on existing tenant renewals. The lower end is more conservative, assuming $23 per square foot average spec suite rents and a slower lease-up period. In either scenario, the projected yield on total invested capital (acquisition plus renovation) is attractive relative to current market returns for stabilized suburban office product in Charlotte.

Comparable Sales

The following transactions represent recent office sales in the Charlotte MSA that we consider most relevant to the pricing of SouthPark Centre. A comprehensive set of 25 comparable transactions, including some older and less directly comparable trades, is available in the data room.

Property	Submarket	SF	Sale Date	Price/SF	Cap Rate	Occ.
Piedmont Row Office, 4720 Piedmont Row Dr	SouthPark	185,000	Q4 2025	$172	7.8%	88%

Property	Submarket	SF	Sale Date	Price/SF	Cap Rate	Occ.
Colony Place, 4201 Colony Rd	SouthPark	112,000	Q3 2025	$168	7.5%	92%
Morrocroft Centre, 6805 Morrison Blvd	SouthPark	225,000	Q1 2025	$185	7.1%	94%
Barclay Downs Office, 5950 Fairview Rd	SouthPark	78,000	Q2 2025	$155	8.2%	82%
Ballantyne Commons, 11325 N Community House Rd	Ballantyne	145,000	Q4 2025	$158	7.4%	91%
Park South Station, 6100 Fairview Rd	SouthPark	92,000	Q1 2026	$178	7.0%	96%

We believe SouthPark Centre's guidance price of $186 per square foot represents an attractive entry point relative to this comparable set, particularly given the value-add opportunity. The building's current 78% occupancy and dated common areas are reflected in the discount to the higher-occupancy, recently renovated comps such as Park South Station ($178/SF at 96% occupied) and Morrocroft Centre ($185/SF at 94% occupied). The guidance pricing is in line with these better-occupied assets, reflecting the seller's view of the value-add potential. A purchaser who executes the renovation program and stabilizes occupancy at 90%+ can reasonably expect the Property to trade at or above current levels upon exit. We also note that the Barclay Downs transaction at $155 per square foot provides a useful data point for a partially occupied building in SouthPark. That property, which traded at 82% occupancy with deferred common area maintenance, is the closest analog to SouthPark Centre's current condition and traded on a similar capitalization rate to the guidance pricing.

Transaction Process

Offering Basis

SouthPark Centre is being offered on an exclusive basis through Crestline Advisors at seller guidance of $52,000,000. The seller is open to negotiation and is seeking a purchaser who can demonstrate the operational capability to execute the renovation program and lease-up strategy. All-cash offers and offers with limited contingencies will be viewed favorably.

Due Diligence

A comprehensive data room has been established and is available to qualified prospective purchasers upon execution of a confidentiality agreement. The data room includes the following materials: Rent roll (current as of May 2026), trailing twelve-month operating statement with monthly detail, individual lease abstracts for all twenty tenants, property condition report, HVAC system assessment, roof inspection report, elevator inspection certificate, vendor contracts summary, insurance certificate, parking management agreement, property management agreement, historical operating statements (three years), historical capital expenditure schedule, title commitment, ALTA survey, Phase I environmental site assessment, zoning confirmation letter, and floor plans by level.

Property Tours

Property tours are available by appointment through the listing broker. Please allow 48 hours notice for scheduling. Tenant-occupied floors may be shown on a limited basis and require advance coordination with building management.

Seller Motivation

The Property is owned by the Hartwell Family Office, which acquired SouthPark Centre in 2009 at a price well below current levels. The Hartwell family is seeking a clean exit as part of a broader portfolio rebalancing initiative and has engaged Crestline Advisors on an exclusive basis to manage the disposition process. The seller is motivated, well capitalized, and prepared to close on a transaction expeditiously. There is no financing contingency on the seller's side.

Timing

The seller is targeting a closing by mid-summer 2026. Interested parties should submit initial indications of interest, including proposed purchase price, due diligence timeline, financing structure, and evidence of financial capacity, to Crestline Advisors at the contact information below.
